Title 1 / 17

Foreword 2/17

A Web Page

GP Practice Bookings

The pages are submitted under PDF format.

All the links in the design are fully functional in the PDF version. Notes and Sticker Notes are included as per presentation.

Thank you

The Header contains the links to all the pages. It appears on the top of each page for an easy access. The section of the header that represents the page will be highlighted accordingly in the actuall web page. On the top of each page there will be a logo and the address of the practice (by doing a small research, I found out that the first thing that a user will search for is the distance form their home to the practice). There is a Sign In link for existing users that is linked to the sign in page. It will be available on several pages. The color design will be standard throughout the whole design. Buttons will de colored separatly, according to functions. There is a spec reserved for an image and can be found on the rest of the paged. On several pages the image will be replaced with a Calendar and a template GP letter to aid the user copleteng the task. Footer contains a link to social networks. For the creator's personal understanding, the pages have been filled with the relevant text.

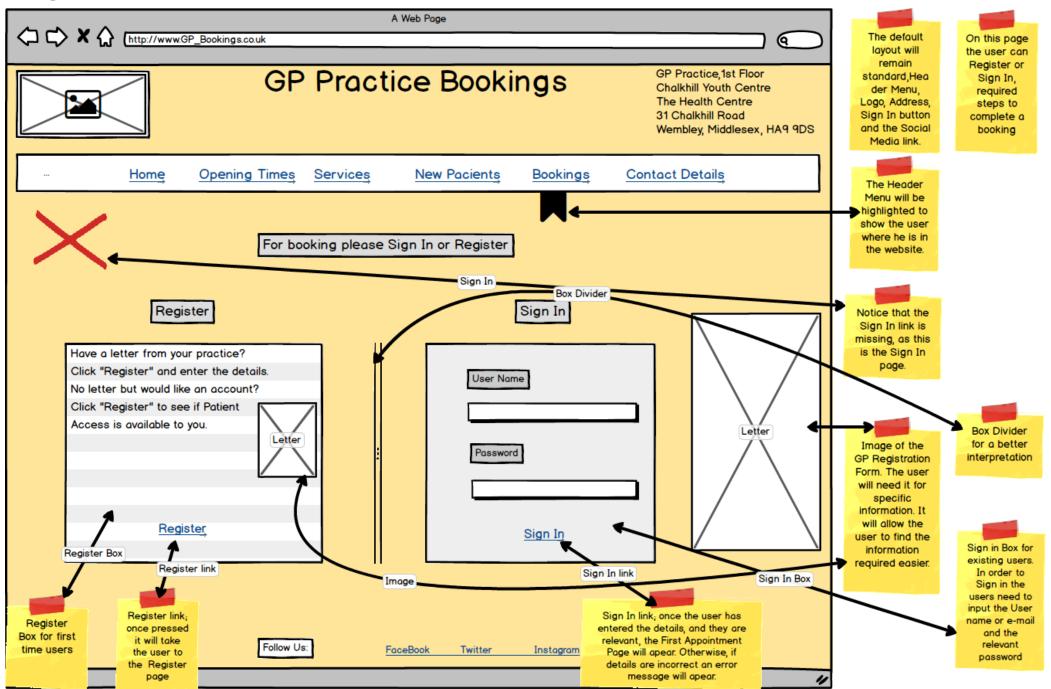

Most of the pages have a more of an informative purpose, the template and colors are similar throughout. On the "Opening Time" page, instead of the the right hand side picture there will be a calendar. "Opening Times" page has informative purpose only. It is an explanation of the opening times of the practice. It has been created to facilitate help the user. Sticy Notes are present on the side of the layout, to provide explanation about the functionality.

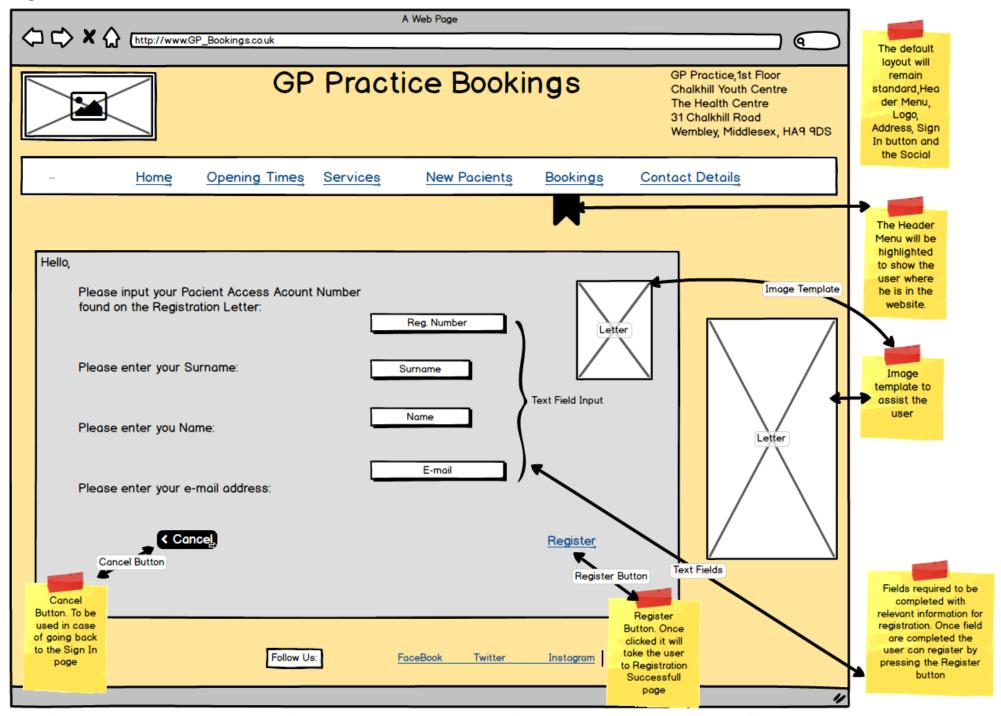

Bookings 8 / 17

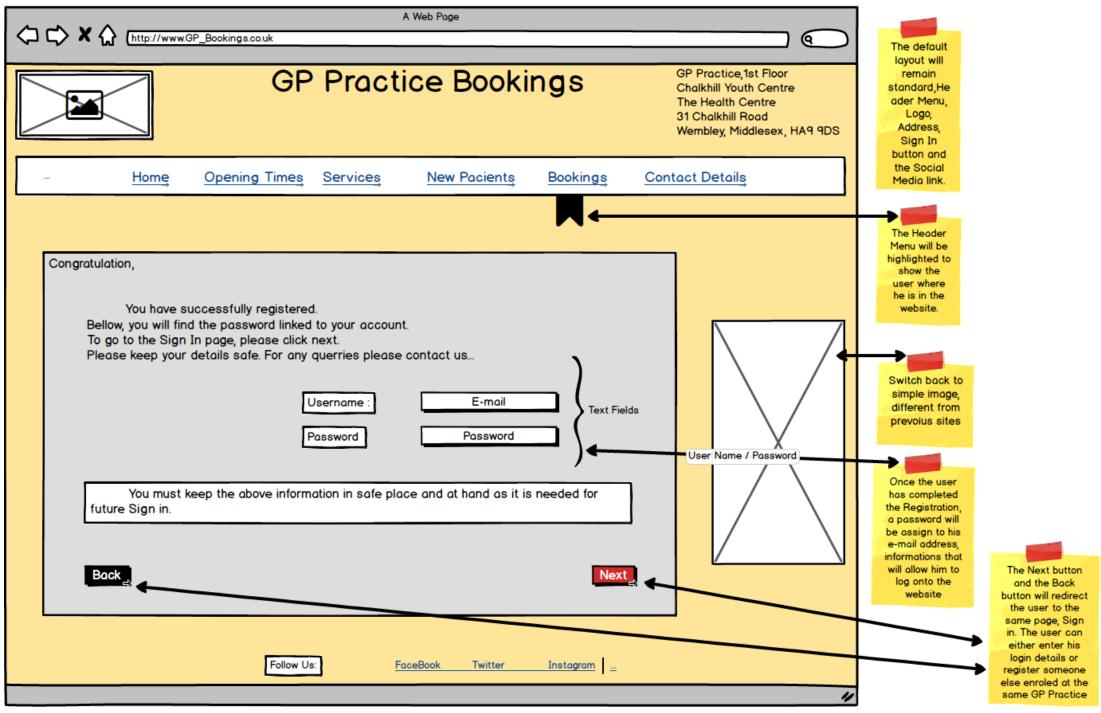

The "Bookings" page will allow the user to register and sign in. The "Sign In" button from the web page template will not be available in here. An access link is provided - Register - that will allow the first time user to register for the practice, and will redirect to the "Register" page. A second link provided - Sign In - all the pages with the Sign In button will be redirected to this page, it will allow the existing user to log in and manage his/her bookings. Color scheme will remain. The links and button will be colored to be eyecatching. The Register and the Sign in boxes will also be informative, as it will let the user know what are the information needed for Register or Sign In. The image on the right hand side will be for eye-catching purposes only. A separator bar will devide the Register box from the Sign In box to eliminate confusions.

Register 9 / 17

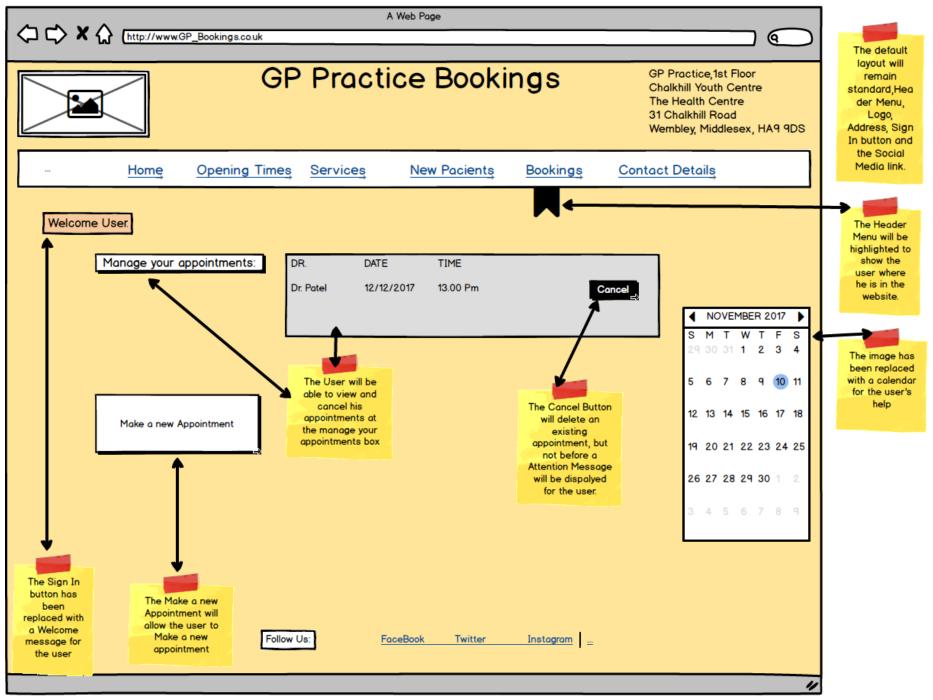

The "Registration" page will ask the user to input certain information to be able to create an account. It will inform the user where a required information is found. The images on the page will contain references similar to the one that the user needs usabillity). There is a Cancel link that will return the user to the Booking Page if the user does not wish to continue with the registration, and there will also be a Register button that will guide the user to the next page. The next page will contain the login credentials. Technically this page will require a connection to a database for accuracy.

Registration Successful 10 / 17

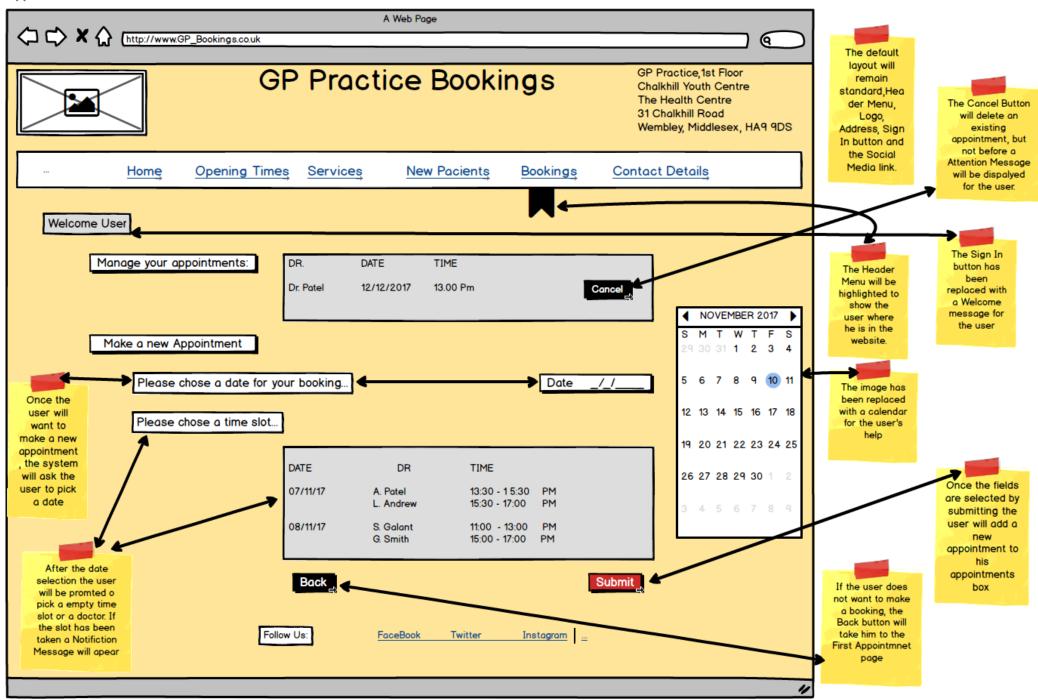

The "Registration Successfull" page will give the credentials to the user and will also remaind him of the security and the importance of the credentials. The important information on the page will be highlighted. Two buttons will be present on this page. The "Back" button will take the user back to the "Register" page and the "Next" button will take the user to the sign in page to enter his credentials and manage his bookings. The buttons will be highlighted.

First Appointment 11 / 17

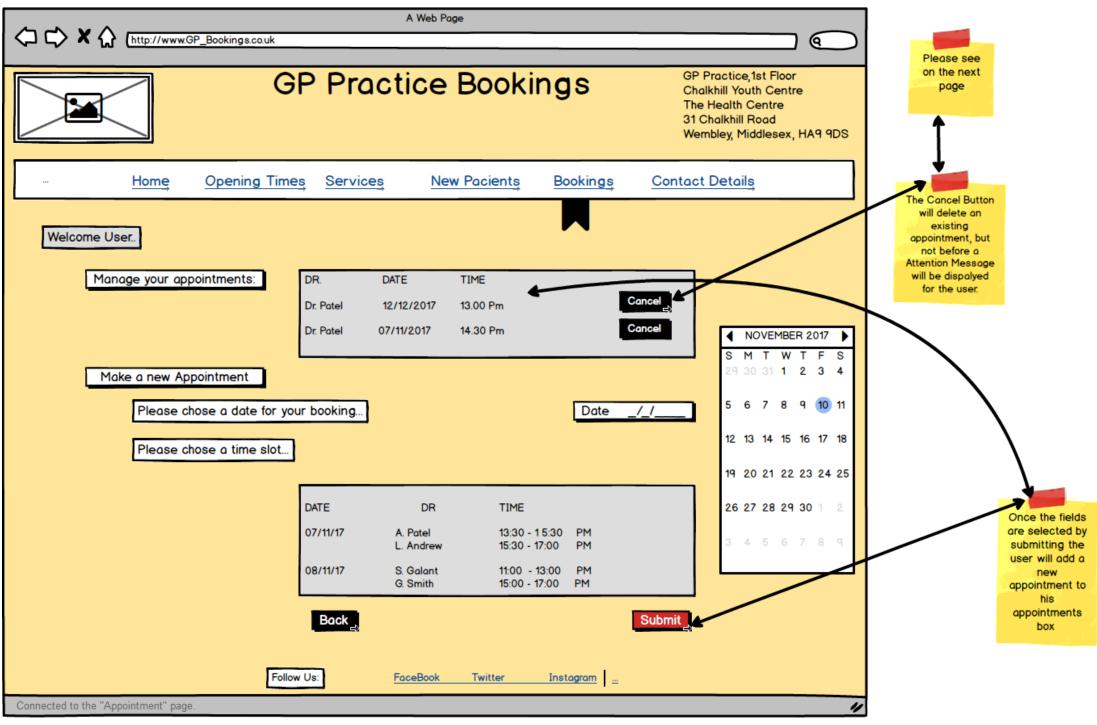

"First Appointment" page will allow the user to manage his bookings and make new ones. A "welcome message" is displayed on the top of the page, under the header. Right after a table with the future or existing bookings will be displayed and with the help of a "Cancel" button the user will be able to delete it's existing booking. As soon as the user hits the "Cancel" button a message will appear on the screen and will ask the user if the operation should continue. If the user clicks "YES", the booking will be deleted. "Make a new Appointment" button will guide the user to book an appointment at a specific time and date. All the buttons will be highlighted accordingly The color scheme will be given by the web page template. On the right hand side a callendar will help the user to pick the date.

Appointment 12 / 17

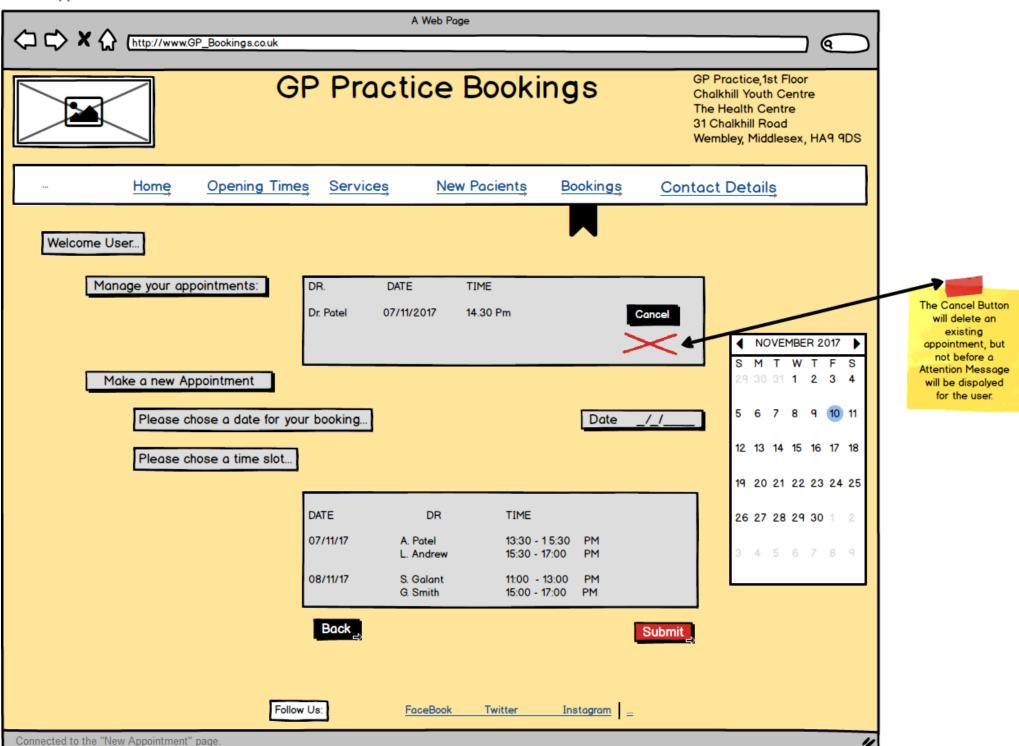

[&]quot;Appointment" page will provide the fields needed to be filled by the user in order to book an appointment. The user will need to select a date with the help of the calendar. Once the date is selected, lower on the page a table will display the available time slots and doctors for the day. The user will have to select and submit his selections to complete the booking. Once submitted the booking will be displayed in the manage the appointments table. "Back" button will be used to take the user to the "First Appointment" page, to manage bookings, or to make a new booking. "Submit" button will display the newly made appointment in the "Manage your appointment box". Color scheme standard, web page template present.

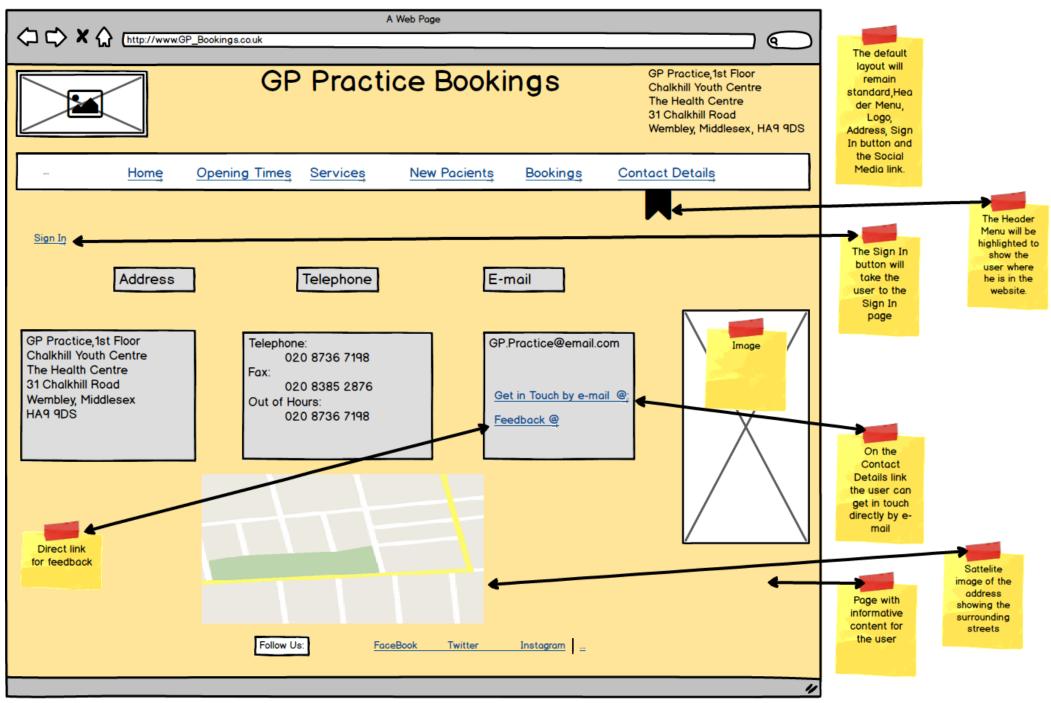

New Appointment 13 / 17

Cancel Appointment 14 / 17

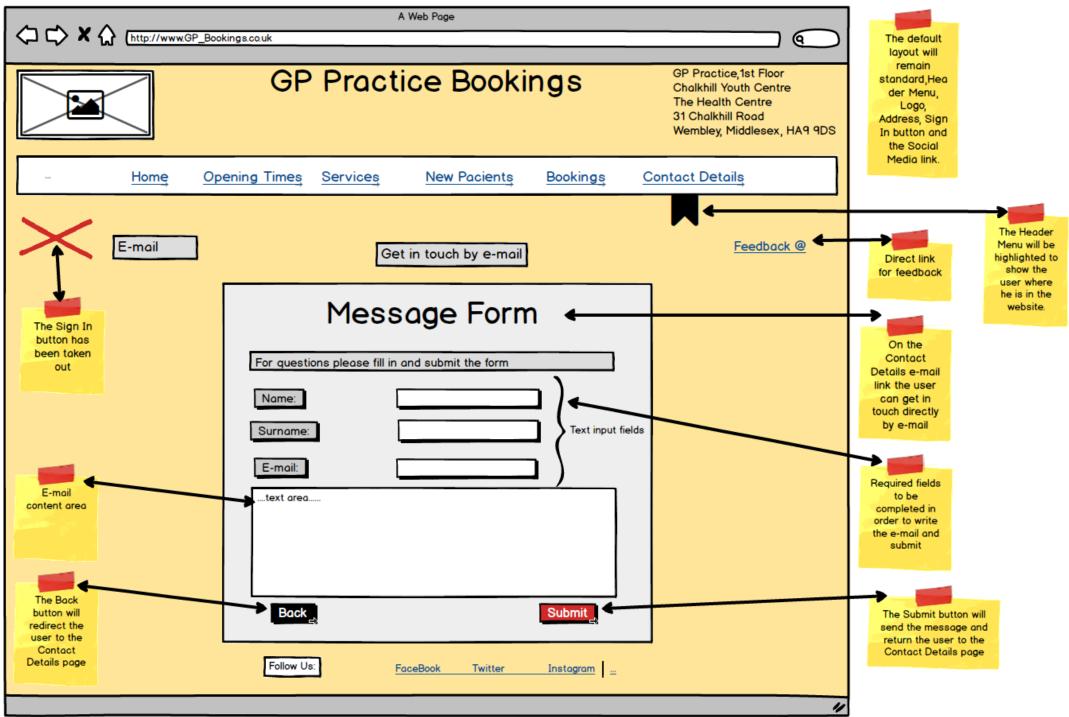

Contact Us 15 / 17

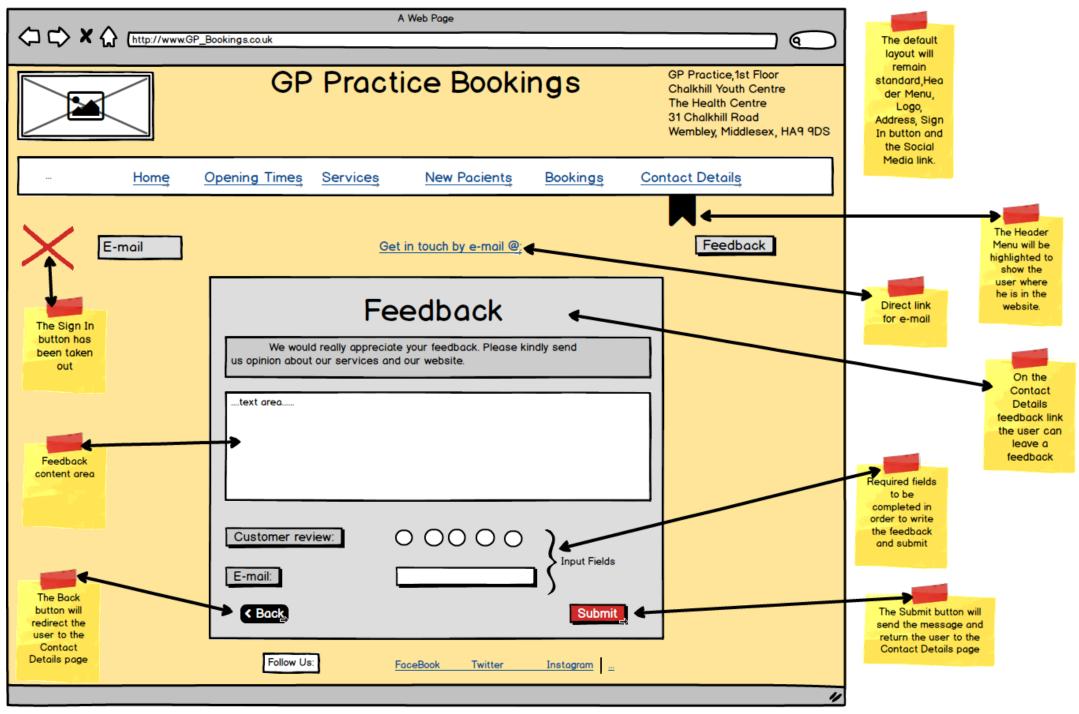

The final link in the header menu will display the "Contact Details" of the GP Practice. The address will be displayed, again, twice on this page, the telephone number, and the email address. A satellite picture will be displayed at the bottom of the page containing the surroundings areas of the address. Important facts about the page are a "Feedback" link and a "Get in touch by e-mail" link will be displayed here. The user will be able to leave feedback throughout this page and get in contact by e-mail. The user will also be allowed to give a feedback from this page. The right hand side image will be for eye-catching purpose only. Colors are standard as per the web page template. The "Get in Touch by e-mail" link and the "Feedback" link will be highlighted accordingly, as the user hovers over them. "Sign In" link will appear again on this page that will redirect the user to the Sign In page, IF the user has not sign in yet.

Contact Details copy 16 / 17

Message Form to be submitted to the Practice. User will only be allowed to submit only after the fields will be all completed. As soon as user has clicked Submited the form he will be redirected to the "Contact Us" page. Color scheme will be given by the web page template. The buttons will be highlighted accordingly. Button color scheme: light grey, black color writting.

Feedback 17 / 17

Feedback Form to be submitted to the Practice. User can write his opinion but he will need to review and enter his e-mail in order to submit. Once the user has clicked "Submitted" the form he will be redirected to the "Contact Us" page. Color scheme will be given by the web page template. The buttons will be highlighted accordingly. Button color scheme: light grey, black color writting. Back button and Submit button exist on this page. Both will redirect to the Contact Us page.
